User Lifecycle & Access: account creation/deactivation workflows, user administration, roles and permissions, password-related workflows, authentication, access control, MFA concepts, onboarding/offboarding concepts.

Microsoft / Google: Microsoft 365 familiarity, Microsoft Office Suite, Google Workspace, Google Drive, Docs and Sheets.

Networking: DNS, TCP/IP, IP addressing, connectivity troubleshooting, domains/hosting and basic network troubleshooting.

Systems: Firebase, Firestore, Firebase Authentication, React, Vite, PHP, WordPress, Flutter, Git/GitHub, GitHub Actions, VS Code.

## PROFESSIONAL EXPERIENCE

### IT / WEB & DIGITAL SYSTEMS SUPPORT - Municipal Information Office, Local Government Unit of Daet

Daet, Camarines Norte | July 2025 - 2026

- Provide end-user technical support for Windows computers, software, peripherals, connectivity issues, websites, and digital workflows used by municipal personnel.
- Troubleshoot Windows installation/recovery, BIOS/UEFI settings, RAM/SSD issues, drivers, devices, software problems, and basic network connectivity; document work and escalate when higher-level intervention is needed.
- Maintain the municipality's WordPress environment and respond to web-related technical requests and configuration issues.
- Developed and maintain the Maogmang Daet platform using React, Vite, Firebase and Firestore, including authentication, user administration, role-based access, permissions, audit logging and system configuration.
- Support account creation, profile updates, office/role assignment, suspension/reactivation and deactivation workflows; use Git/GitHub, testing and automated build checks to manage changes.

### REMOTE DIGITAL OPERATIONS / PHOTOSHOP PRODUCTION - Rakrisa & Co.

Remote | November 2024 - Present

- Process customer order files and production requests with close attention to specifications, file quality, accuracy and deadlines.
- Follow repeatable procedures, identify discrepancies, communicate unclear requirements, and manage multiple tasks independently in a remote environment.

### ADMINISTRATIVE ASSISTANT - Finance Department, Docejo Logistic Services

Philippines | February 19, 2024 - May 7, 2024

- Reviewed financial documents for accuracy and completeness, maintained organized records, performed data entry and followed established administrative processes.

## SELECTED IT PROJECTS

MyDaet / Maogmang Daet: Built administrative and public-facing modules using React, Vite, Firebase and Firestore; implemented authentication, user administration, role-based access, permissions, audit logs, validation and error handling.

Daet Document Tracking System: Developing a Flutter/Firebase document-routing system with office-to-office routing, QR-based tracking, status monitoring and audit history.

## EDUCATION & ELIGIBILITY

Bachelor of Science in Information Technology - Camarines Norte State College | 2024
Career Service Professional Eligibility - Civil Service Commission, Philippines | Passed August 2025
